

Biomedical Equipment Technology

Modern Healthcare runs on technology and someone has to keep that technology in top working order. Graduates of Collin College's Biomedical Equipment Technology program have the training to ensure that lifesaving medical equipment is ready when needed. This career is perfect for people interested in healthcare without direct patient care. Top employers include hospitals, medical offices, and clinics.

Careers in Biomedical Equipment Technology

Medical Equipment Repairers

Average Starting Salary: \$39,100

Average Salary: \$63,700

Projected Job Growth: 34.7%

Other careers include engineering, sales, or service for equipment manufacturers.

The average salary listed reflects the mean average wage for workers in this industry, while the average starting wage is tied to workers at the beginning of their careers. The earning potential for employees with certifications and associate of applied science degrees may exceed the average salary.

*Data for Collin County obtained from JobsEQ and O*Net*

Note: Average salary for occupation as of 2023 and job growth projected from 2023-2029.
