SAIL is an educational program operated by and for individuals 55 years of age or better under the sponsorship of Collin College Continuing Education.

## Welcome to SPRING 2025!

If you are new to SAIL, we extend a warm welcome and if you are a returning SAIL member, we are so excited to have you back! Spring signifies renewal, growth, and fresh starts. The spring schedule is full of interesting and thought-provoking courses to help you kick start the new year!

Collin College Courtyard Center in Plano will be getting a “face lift” and will be closed until renovations are complete. Our spring classes will be held at other Collin College campuses, and I hope you will take the opportunity to take spring classes at these amazing locations. Renovations are expected to be completed Fall 2025 and SAIL classes will be back on campus. We will also be celebrating our 29th year of exceptional lifelong learning.

For the spring semester choose **(8) on campus courses** and **unlimited online courses**. The “**Bonus Courses**” can be taken in addition to your (8) on campus courses. Guest Speakers are also free to attend, but be sure to register, so we have an accurate seat count.

SAIL classes are open to members who are 55+ and have an interest in learning! Did you know that anyone that meets the age requirement can take SAIL classes from anywhere in the world?

If you have **registered** for the class, a link to the online learning session will be emailed to you a few days before the class begins. Be sure to save the link where you can easily find it, as most links will be re-curring for that course.

SAIL (Scholars Active in Learning) launched its first semester under the sponsorship of Collin College in Fall 1996 and has been serving our community of lifelong learners ever since! We offer a fall, spring and summer term and each semester brings all new content to challenge, discuss and stimulate your brain. It's also a great way to socialize, meet new friends and share your love of learning!

It is our members, instructors and guest speakers that make this amazing program what it is today. We thank each one of you for “sailing” with us.

Enjoy your classes this semester and feel free to contact the SAIL office with any questions at **972-985-3788** or email [sail@collin.edu](mailto:sail@collin.edu).

**Dr. Redgraves** has been teaching history for nine years, four of which have been with Collin College. His focus is on American history with an emphasis on African American soldiers.

## European American Relations with Indigenous Peoples in Western U.S.

History of conflict, agreements and cultural exchanges between Americans, largely of European descent, and native peoples west of the Mississippi River, including those pushed by encroaching settlement and forcible relocation. We will discuss the reasons events occurred and why alternatives failed or were disregarded.

Fri. 1/31-2/14 11 am-12:30 pm Campus: Plano\* Room L200  
Instructor: Brian de la Houssay Sessions: 3

*Collin College Plano Campus 2800 E. Spring Creek Pkwy, Plano, TX 75074* <https://www.collin.edu/campuses/plano/planocampusmaps.pdf>

**Brian de la Houssaye** grew up between El Paso and Tucson. His father was a horse cavalryman of the 7th Regiment, long after Little Bighorn. He used to listen to stories told by his grandparents about Indian raids in the late 1800s and family myths about having some Cherokee and, possibly, Comanche ancestry. DNA says otherwise. He had friends who were Chiracahua, Mescalero, White Mountain Apache and Tohono Oodham (Papago). As a young boy, searching for arrowheads at Hueco Tanks and Ft. Bowie, he became interested in the stories of the tribes, which further increased when his family visited the Custer Battlefield during one of their many camping vacations in the Rockies.

## Go Pullman: The Era of Luxury Rail Travel in America

Pullman's entrance into this industry was a new innovation in manufacturing as well as luxury and marketing. The name, "Pullman," became synonymous with style and comfort, while the impeccable service of the Porters who catered to the passengers helped to define the era of luxury rail travel.

His vision also led to the creation of a master-planned industrial community south of Chicago, where employees lived in company housing and worked in the Pullman car shops. In this class, we will discuss the creation of the model town, the role of Pullman Porters, and travel during the golden age of passenger train service.

Thur. 4/17 10-11 am Campus: CHEC\* Room 106  
Instructor: Melissa Johnson Sessions: 1

*\*Collin Higher Education Center (CHEC) 3451 TX-399 Spur, McKinney, TX 75069* <https://www.collin.edu/chec/maps.html>

**Melissa Johnson** is a full-time faculty member of the History Department at Collin College. Johnson earned her B.S. and M.A. from Texas Woman's University, specializing in 19<sup>th</sup> Century American and Industrial history. She worked for the Museum of the American Railroad for many years, where she first began researching the Pullman Company.

## "Lesser" Stories Beyond History's Headlines

Forgotten settlements, battles, villains, and heroes contribute to the fabric of the American experience. From the earliest arrival to the great expansion across the continent, stories of individual adventures and challenges have often been omitted from history books or generated mythology beyond reality. Delving beyond history's headlines reveals tales of daring, courage, and persistence.

Thur 4/3-4/24 11 am-12:30 pm Campus: Frisco\* Room J106  
Instructor: Dr. Janet Harris Sessions: 4

*\*Collin College Frisco Campus 9700 Wade Blvd., Frisco, TX 75035* <https://www.collin.edu/campuses/frisco/>

**Dr. Janet Harris** has taught literature and writing for over twenty-five years, coached readers and writers in pursuing their personal goals, and reviewed books. She has retired several times, the first from UT-Dallas.

# HISTORY

## Rosie the Riveter and the Other Women Who Won World War II

During World War II, women entered the work force in unprecedented numbers. They built ships and planes and produced ammunition. They flew planes, served as nurses and communication personnel and even worked as spies. All Branches of the military utilized women in coding and de-coding, patrolling beaches, transporting men and supplies and driving and repairing vehicles of all kinds. The world changed after World War II for everyone, but more so for the women who produced war goods and kept the home fires burning.

Thur. 2/6 1:30-3 pm Campus: CHEC\* Room 106  
Instructor: Karen Marcotte Sessions: 1

\*Collin Higher Education Center (CHEC) 3451 TX-399 Spur, McKinney, TX 75069 <https://www.collin.edu/chech/maps.html>

**Karen Marcotte** is a retired Professor Emerita in History and Humanities and taught for 40 years in the Alamo Community College District (ACCD) in San Antonio. Her last 30 years were at Palo Alto College in ACCD where she was a founding member. During those years she chaired the Social Sciences Department, developed and taught curriculum for the majority of the History and Humanities classes. She and her husband are avid travelers and have recently relocated to McKinney to be closer to family.

## Turmoil and Change: The 1960s!

This seminar course examines the emerging mood in America during the 1960s. The inclusive years of the 1960s begins with the election of John Kennedy as the 35th President of the United States in 1960 and concludes with the end of the Vietnam War on January 27, 1973. This entire period was, in fact, more than a time of change: it was a time of formation. More than 70 million young Americans of the postwar years – “baby boomers” - were coming of age and not liking the direction America was going.

This course specifically illuminates and illustrates how young Americans having experienced the conservative and lucrative post-war fifties with the advent of television, rock & roll, and superhighways, would eventually reject their parents America and any association with their parents’ generation. This rejection included experimenting with new and radical ways of thinking that powerfully challenged the very fabric of American life. To be sure, many of the revolutionary ideas from the sixties are shaping life in the West today.

Fri. 3/28 & 4/4 3-4:30 pm Campus: CHEC\* Room 106  
Instructor: Dr. John Williams Sessions: 2

\*Collin Higher Education Center (CHEC) 3451 TX-399 Spur, McKinney, TX 75069 <https://www.collin.edu/chech/maps.html>

**Dr. John P. Williams** is a full-time Professor at Collin Colleges McKinney Campus. Prior to his teaching career, he worked in the corporate world as an information analyst and served in the United State Marine Corps. Dr. Williams’s educational background includes an A.A. degree in Paralegal Studies, a B.A. degree in History, an M.A. in Teaching, and a master’s in liberal arts. He finished his Ph.D. at the University of Texas at Dallas in 2020, which focused on Immigration to America, the First World War and the Lost Generation, and Nazi Germany and Holocaust. Currently, he is working on his first book and hopes to have it published in the near future.

## HISTORY

### Two Queens, One Throne (ONLINE)

Elizabeth was the illegitimate product of the unlawful marriage of Henry and Anne Boleyn. After Anne's execution, she was declared a bastard. Elizabeth had been named third in the line of succession, being only eligible to rule in the (unlikely) event of her siblings - Edward VI and Mary I – not having heirs, which is in fact what happened. Elizabeth chose to follow the Church of England and reversed Mary's attempts to turn the country Catholic. Those who had followed Mary into Catholicism were not supportive of Elizabeth as their sovereign. However, Elizabeth was a more competent politician in those troubled times. She refused to marry, being unwilling to cede authority to her husband, whomever he might be. Because she never married, she had no official heir. James VI of Scotland succeeded Elizabeth and became James I of England and Scotland, establishing the Stuart Dynasty.

Mary was the great-niece of Henry VIII, being the granddaughter of Henry's sister, Margaret. Mary was crowned Queen of Scotland at only six days old and was raised in France with her husband-to-be, Francis II. At 16, she was married to the Dauphin and crowned Queen of France. Mary's position as the only legitimate heir of James V and Mary of Guise solidified her royal status. As a Catholic ruler, she was significantly supported by the Catholics in England who were not happy with Elizabeth's return to the Church of England. Mary felt she was the more appropriate ruler of England and Scotland and plotted accordingly, which led to her death. She did make Elizabeth the guardian of her son, James VI of Scotland.

Elizabeth won in life; Mary won in death.

Tue. 1/28-2/18 2-3:30 pm **ONLINE**  
Instructor: Sonia Meltzer Sessions: 4

**Sonia Meltzer** is a graduate of U.T. Dallas with a master's in interdisciplinary studies with coursework in holocaust studies, literature, history, history of criticism and aesthetics.

### The U.S. and the Holocaust (ONLINE)

This course examines America's response to one of the greatest humanitarian crises of the 20<sup>th</sup> century. Rightfully so, Americans considered themselves a "nation of immigrants," but as the catastrophe of the Holocaust unfolded in Europe, the United States proved unwilling to open its doors to more than a fraction of the hundreds of thousands of people seeking refuge. Through riveting firsthand testimony of witnesses and survivors who as children endured persecution, violence and flight as their families tried to escape Hitler.

This course delves deeply into the tragic human consequences of public indifference, bureaucratic red tape and restrictive quota laws in American. Did the nation fail to live up to its ideals? This is a history to be reckoned with.

Thur. 2/6-2/27 11 am-12:45 pm **ONLINE**  
Instructor: Dr. Herb Weinstein Sessions: 4

**Herbert Weinstein**, Ph.D. received his B.S. from Tufts University and a Ph.D. and Sloan Postdoctoral Fellowship at Princeton University in Chemical Engineering. After a 32-year career in industry and as a private consultant doing oilfield research, adjunct teaching at colleges and private tutoring, he chose to enter secondary education. Herb taught math at all levels and fundamentals of computer programming at Yavneh Academy, The Hockaday School and Parish Episcopal School and is now retired after 13 years of secondary education. "I did some great things in industry, but I feel that as a teacher, I have done even greater things; making a major difference in the lives of my students-students of all ages!"

## HISTORY (CONT.)

### The Vikings Are Coming! The Vikings Are Coming!

Set sail for two of the most exotic and mysterious Viking lands of the North Atlantic Ocean: Newfoundland and the Faroe Islands. Lands of rock, water, fog and ice, idyllic landscapes that evoke awe and amazement – stories full of discovery, mythical creatures, epic adventures and rugged survival. We'll explore the history, geography, customs and scenery of these lands.

Each lesson will include a day-by-day travelogue and photo exhibit that will make you feel like you're right there among these Viking people. The Vikings are coming, so you better be ready!

[1] Newfoundland, in eastern Canada, was explored and briefly inhabited by a small Viking band a thousand years ago under the leadership of Leif Erikson and Gudrid Thorbjarnardottir.

[2] The Faroe Islands are situated 300 miles east of Iceland. The Faroese people, isolated for centuries from the European mainland, reflect a hardy culture, language and attitude much like the Vikings of old.

Thur. 3/6 & 3/13 10 am-11:30 am **ONLINE**

Instructor: Don Wolman Sessions: 2

**Don Wolman** is a teacher, world traveler and writer. He teaches classes in geography, travel, history, and science. Don holds a bachelor's degree in engineering from M.I.T. and a master's degree in physics from Tufts University. He is a strong proponent of collaborative lifelong learning and volunteers as a speaker/presenter around the DFW area.

### Women of the United States Supreme Court

The first four women to serve on the U.S. Supreme Court were Sandra Day O'Connor, Ruth Bader Ginsburg, Sonia Sotomayor and Elena Kagan. Each of these women brought unique talents, expertise and knowledge to the Court. By examining biographical information, their experiences prior to the Court, their appointments and confirmations and their activities on the Court, we will learn of their contributions to the nation as well as the law.

### Hallelujah – The Passion of George Frederick Handel (ONLINE)

Unmatched in three centuries for his brilliant compositions, George Frederick Handel (1685-1759) breathed passion, power and beauty into the world of music. His soaring melodies and glorious choral works still bring joy to listeners around the world. In this course we will highlight the dramatic story of his life and listen to excerpts of his beautiful music. We'll take deep dives into some of Handel's greatest choruses and most heartfelt arias, and hear directly from great performers who bring Handel's passion to life.

Beethoven said of Handel, "He was the master of us all... the greatest composer that ever lived. I would uncover my head and kneel before his tomb." Join us for an experience in great music. Hallelujah!

## LITERATURE/MUSIC/WRITING (CONT.)

### “Make It New” Innovation and Early Twentieth Century Poetry (ONLINE)

This lecture will explore well-known poets, their poetry, and the movements that made them famous. We will discuss a selection of poems and the irony that making something new is a very old idea. The talk will focus on poetry published from 1913-63, including works from movements like Imagism, the Harlem Renaissance, and the Beat Generation.

Wed. 1/29 1-2 pm **ONLINE**  
Instructor: Dr. Scott Cheney \*New Instructor Sessions: 1

**Scott Cheney** received his Ph.D. in Modern Literature and Culture from Loyola University Chicago in 2014, where he wrote his dissertation: “Anthologizing Modernism: New Verse Anthologies, 1913-53.” He has been teaching higher education since 2003, started teaching full-time at Collin College in 2012, and began teaching for the iCollin Virtual Campus in Fall 2021. Scott enjoys trail running, backpacking, and camping with his family.

### The Creative Writer’s Toolbox: Crafting Endings (ONLINE)

This three-part online course introduces several writing exercises centered on the ways in which we go about writing the endings to stories. Participants will be encouraged to compose elements of prose and engage with imaginative literature as we examine the craft of ending a story that we can then apply to our current and future writing projects.

Thur. 3/27-4/10 3:30-4:30 pm **ONLINE**  
Instructor: Amanda Field Sessions: 3

**Amanda Field** earned her MFA in Creative Writing at Oklahoma City University. She is currently finishing her Ph.D. in Humanities in American Literature, Creative Writing, and the history of magic and science. As a full-time English professor at Collin College Wylie Campus, Amanda enjoys teaching writing, working on her own short story collections, novellas, and books, knitting gifts for others, and enjoying time with her growing family.

### The Love of Musicals V

Please join us again as we continue with the history and the enjoyment of viewing great music productions from Hollywood, Broadway, and Stage. We will continue with some biographies and background stories of some of the performers, writers, and especially those songs and dances that will evoke your loved memories of the good times past and encourage us to look to a great future. Come sit a while and smile!

Darrell has taught at multiple universities and was the developer, manager and trainer of the Information Technology Curriculum for National Health Labs, Inc. while in Dallas.

### The Secret Life of Great Classical Music

We all love music and many of us have come to love one piece of classical music or another, but what do we know about its meaning? Is it just flowing and fleeting emotions or is there more? What makes it tick? *What is the secret of classical music?* It is full of stories and meaning—always! The secrets are also in the structure of the music and in the DNA--the harmonic changes! We will explore classical masterpieces by Mozart, Brahms, Schubert and Mahler. Come, see and hear for yourself!

### Artificial Intelligence: 3 Years of Innovation (ONLINE)

Explore how Artificial Intelligence has rapidly transformed over the past three years and discover how these innovations are reshaping daily life, industries, and the future. Tailored for those interested in understanding AI's impact, this class offers an accessible look into the latest advancements and practical applications of this powerful technology.

Thur. 4/24 1:30-3 pm **ONLINE**  
Sessions: 1

**Daphne Lee** teaches professionals and individuals how to use technology – mobile devices, smartphones, computers, and peripherals. Her students are all “mature” adults. In addition to Microsoft networking certifications, she holds a Master of Science in Instructional Design degree from Boise State University and her goal is to increase individual performance through the effective use of technology. Daphne and her husband have been in the Dallas area for 25 years and have two beautiful Golden Retrievers.

### Body Works 101: The Urinary System (ONLINE)

The Urinary System is responsible for more than urine production. It is the main organ system regulating blood composition. Nephrons, the functional units of the kidney, and associated collecting ducts are key structures in this regulation. The filtering of blood results in changes to volume, pressure, pH, ions, and the regulation of glucose and calcium levels. In this course, we will learn how the kidney produces urine, regulates blood composition, and the associated diseases of this system. There will be a brief discussion of system anatomy with a primary focus on the microanatomy and physiology of the nephron. At the end of this course, students should have enough knowledge about the system to understand most published media sources easily.

Tue. 4/8 & 4/15 11 am-noon **ONLINE**  
Instructor: Dr. Nicole Grose Sessions: 2

**Dr. Nicole Grose** is a retired Anatomy & Physiology professor. Her doctorate degree is in Quantitative Biology with emphasis in Cell Physiology. Nicole has taught multiple courses in biology from General Biology to Honors Anatomy & Physiology. When she is not teaching SAIL courses, Nicole is assisting high school and college students through tutoring and college readiness consultation. "The function of education is to teach one to think intensely and to think critically. Intelligence plus character -that is the goal of true education." Dr. Martin Luther King, Jr.

### Feed Your Frame: How Diet Can Defend Against Osteoporosis (ONLINE)

Bone physiology involves the structure, composition, and function of bones, which play a vital role in providing structural support, protecting organs, facilitating movement, storing minerals, and producing blood cells. Bones are dynamic, living tissues that continuously remodel throughout life. In the older age, diet plays a crucial role in preventing osteoporosis, a condition characterized by weak and brittle bones. Adequate intake of calcium and vitamin D is essential, as calcium supports bone structure while vitamin D improves calcium absorption. Additionally, protein helps maintain bone density, while fruits and vegetables provide essential minerals and antioxidants that combat bone deterioration.

Fri. 3/28 2-3 pm **ONLINE**

Instructors: Dr. Amira Shaham-Albalancy & Dr. Shiva Davanloo Sessions: 1

**Amira Shaham-Albalancy** Ph.D., studied in the Animal Sciences Department of the Faculty of Agriculture at the Hebrew University of Jerusalem. Dr. Albalancy moved to Texas from Israel in 2001 and started teaching at Collin College as associate faculty in 2004. She became a full-time faculty for Collin College in 2006 and teaches Human Anatomy and Physiology classes for science and non-science majors.

**Shiva Davanloo** has a Ph.D. in Nutrition Sciences from Texas Woman's University and has been teaching nutrition courses, both undergraduate and graduate for over 20 years during which she supervised different thesis and dissertations, practiced dietetics, and has worked as the chair for the Clinical Nutrition department at her previous workplace. She has been a full-time professor with Collin College for the past 15 years.

### Introduction to the Solar System (ONLINE)

A lot has changed in what we were taught in grade school about our solar system, and not just poor Pluto getting demoted. Did you know that Pluto's diameter is only 1,400 miles? That is not even half way across the continental US! We have discovered numerous "moons" and that some planets do not even have a surface. Also, many of the bodies in the Solar System have water, and some have the ability to harbor life. Join us on the exploration of where we are in the galaxy and universe and get some unique facts about our solar system neighbors.

Instructor: Greg Indelicato Sessions: 4

**Greg Indelicato** holds a Bachelor's degree in Geology from Queens College, CUNY and a Master's degree in Earth and Space Sciences from Stony Brook University (SUNY), as well as an MBA from Oklahoma City University. He holds several certifications in the wine and spirits discipline, notably WSET 1 and 2; World MasterClass of Whiskey and Certified Bourbon Steward. Recently retired, Greg now pursues opportunities to share his knowledge and love of wine and spirits with his fellow enthusiasts.

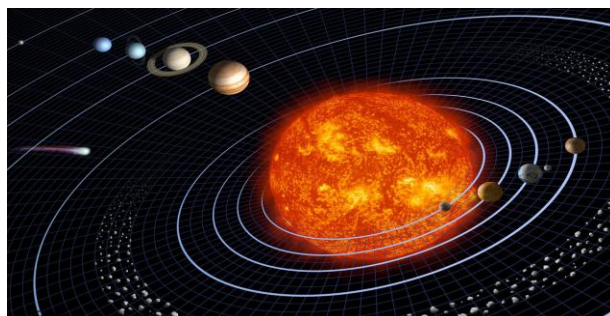

### Keeping Your Estate Planning Up to Date (ONLINE)

In this course, we will learn basic estate planning, including important questions you must ask. We will learn about common mistakes that are made so you don't make them! We will also explore the myths and misconceptions that many people have. Finally, we will discuss missed opportunities in estate planning.

Tue. 4/22 2-3 pm **ONLINE**

Instructor: Candace Vogt Sessions: 1

**Candace Vogt** graduated from Auburn University and Vanderbilt University, School of Law. She has practiced and is licensed in both Alabama and Texas. She also taught law school in Alabama for three years as an Assistant Professor, concentrating in Estate Planning, Estate Tax, Real Estate and Elder Law. She has been a partner with a major Alabama law firm and is now a partner at Vogt Duff Law Group in McKinney. She practices mainly in the areas of estate planning, real estate, and small business management.

### Living Heart Centered (ONLINE)

How do you create space each day to listen to your heart? If you are like me, often times I let thoughts of worry, anxiety, or some level of fear become my reality. Perhaps we have been conditioned with limiting and fearful messages. Yet, there is a deeper consciousness within each of us. Always steady, non-judgmental, a calm center full of love ready to guide our every thought and action.

Join us for an exploration of the heart space, concluding with an easy heart center meditation.

Wed. 1/29 11 am-noon **ONLINE**  
Instructor: Lara Sarna Sessions: 1

**Laura Sarna** is a partner and certified energy balancing practitioner at *For the Love of Healing*. She has a genuine tending to self-growth she readily shares with clients, showing a path by example. We are all both teacher and student! Laura views life through the lens of laughter sprinkled with compassion and love and brings that energy to her classes.

### Major Transitions in Evolution (ONLINE)

What is Evolution? Change over time, but more important Observable change in Life Over Time.

In this course, we will combine the best of earth sciences and life sciences to show how all contribute to our understanding of the big picture of evolution. We will focus not only on fossil evidence, but also on plate tectonics, biological changes and genetics. This will allow us to test out all the significant transformations in the history of life.
